A beautiful, seductive bedroom, complete with four-poster bed, is what interior designer Amgad Kamel of AK Interiors had in mind here. Kamel customised a ready-made four-poster by adding a stepped bedhead to accent the wall panelling. It's given a theatrical setting in front of the recessed, deep plum feature wall. Soft furnishings were custom-made using gold as the key colour. The reversible throw, for example, has a fleur-de-lis pattern in gold with purple highlights on one side and black faux fur on the reverse. Windows are luxuriously layered with pleated golden sheer and taffeta drapes topped with a pelmet in the same silk as the bedside lampshades. Plush carpet is framed with a wooden border to make the large room feel more intimate. ►
